

BAR MOUNTING DEVICE SWIVEL MOUNT

180° ORIENTATION

For an easy and efficient installation of TPL Vision's led bars, the company has developed a specific mounting bracket: the **Swivel Mount**.

Compatible with most TPL Vision's bars (see pictures on the left), the **Swivel Mount** can be orientated on a 180° axis. Thanks to this mounting bracket, it becomes very easy to customize precisely the lighting angle, and to ensure a major stability.

COMPATIBILITY

Essential EBAR+

Modular M-EBAR

Backlight BLBAR+
